LEOPOLDVILLE, the Congo (AP) — Premier Patrice Lumumba said Tuesday night his ultimatum to the United Nations to get Belgian troops out of the Congo expires at midnight. He indicated he still is considering an appeal to the Soviet Union for help.

LEOPOLDVILLE, the Congo (AP) — Belgian soldiers began pulling out of Leopoldville today, leaving U. N. forces to keep the peace within the capital.

U. N. Undersecretary Ralph J. Bunche told newsmen the withdrawal is scheduled to be completed by 7 p. m. Saturday.

Premier Patrice Lumumba had threatened to ask for Soviet aid if the Belgians were not out of the Congo by midnight tonight, but the commander of U. N. military forces said that "does not worry us at all." The U. N. Security Council in New York is taking another look at the Congo situation Wednesday.

Belgian soldiers, called in to protect white residents from bands of mutinous Congolese soldiers, are pulling back to their Congo bases. It is not expected that they will return to Belgium. Congo bases were guaranteed to them by treaty with the Congo government.

Lumumba insists, however, the treaty became a dead letter when Belgian soldiers were flown into the Congo after the outbreak of the Congo army mutiny earlier this month.

Leopoldville is one of 20 urban centers taken over by Belgian forces after the Congo won independence June 30.

Even the Leopoldville Airport, an escape hatch for many of the 25,000 whites who have fled the Congo, will be taken over by the U. N. from its Belgian guards.

A communique on these arrangements was issued by Bunche after he had a long meeting with Maj. Gen. Carl von Horn, commander of U. N. forces in the Congo, and the Belgian ambassador.

## Delaware Told to Integrate Schools Now

PHILADELPHIA (AP) — The U. S. Circuit Court of Appeals today struck down Delaware's grade-school desegregation plan and ordered full integration of the state's public schools to begin in the fall of 1961.

The court also directed that 20 Negro students who had attacked the gradual desegregation plan should be admitted to Delaware public schools this fall.

In so doing, the court upheld an appeal by Louis L. Redding, Wilmington, Del., attorney for the children who contended segregation of the races is illegal and that the plan for total integration by 1972 did not comply with a U. S. Supreme Court ruling.

The Delaware Board of Education's grade-school plan went into effect last September with the approval of U. S. District Judge Paul Leahy.

Chief Judge John Biggs Jr., writing the majority opinion for the seven-judge court, said Leahy's decision did not conform to rulings of the Circuit Court or the Supreme Court. Today's decision was by a 6-1 vote.

Last year, 20 Negro pupils were admitted to first-grade classes in Delaware's school system. This fall, under the plan struck down today, Negroes would have reached the second grade. By 1972, Negroes would have been seated in all 12 grades.

Redding contended that none of the pupils he represented—there were 42 originally—would ever be the first-grade level when the plan went into effect.

MOSCOW (AP) — The Soviet Union today demanded that the United States withdraw a detachment of 20 armed men which it said had landed at Leopoldville in the Congo.

UNITED NATIONS, N. Y. (AP) — The U. N. announced today that Secretary General Dag Hammarskjöld will leave Saturday for the troubled Congo.

A U. N. press statement did not say why he was going. But it said that after "the necessary stay in Leopoldville" he would go on to Pretoria, South Africa, for talks with officials on that country's racial policies.

He may return to Leopoldville from Pretoria.

### Dozens Hurt in Train Accident

ST. PAUL, Minn. (AP) — A 17-unit Milwaukee Road passenger train slammed into a trailer-truck Monday. Dozens of passengers on the afternoon Hiawatha en route to Chicago suffered minor injuries; 10 were hospitalized overnight.

The truck driver, Robert Kensing, 31, St. Paul, escaped injury as the train sheared off the trailer loaded with aluminum gliders for a nearby construction project.

The lead diesel engine and seven cars slipped over and others stacked up in crazy patterns.

The cloud shot to an altitude of five miles as the 10,750-foot high volcano, the biggest in Europe, erupted with a violence unmatched in modern times. ## Eight Killed in Wisconsin Store Blast

MERRILL, Wis. (AP) — A violent explosion turned the J.C. Penney Co. department store into a pile of twisted, charred debris Monday. Eight persons were killed and 11 injured.

"We don't know what caused it," said Mayor Ralph Voigt. "It's a terrible thing for us."

The identified dead were Einar Seger, 55, a customer in the store and former clerk for this village of 10,000 in northern Wisconsin; Mrs. Louis Hamilton, Mrs. Geraldine Wissen, and Mrs. Lawrence Borchardt, all employees; Mrs. George Erickson and her mother, Mrs. Amanda Evans, shoppers; Mrs. Carl Yorde and her son, 12.

I. S. Stals and John McElale, of the State Industrial Commission, began an investigation into the cause of the blast.

The one-story modern building was located on the same site where an A&P supermarket was destroyed by an explosion July 12, 1951. The blast then was blamed on an accumulation of gas in an adjoining building. Officials of the Merrill City Gas Utility said the Penney explosion "could not possibly" have been caused by a gas leak. They said none of their pipes is connected to the building.

## 'Don't Touch Cuba' Soviet Union Bluntly Warns United States

### British Declare Soviet Policy Leads to War

LONDON (AP) — Prime Minister Harold Macmillan today warned Soviet Premier Nikita Khrushchev that the world may slip accidentally into nuclear war if present trends in Soviet foreign policy continue.

In a personal message to the Soviet leader, Macmillan declared: "I simply do not understand what your purpose is to-day."

The British leader's note accompanied a governmental reply to a Soviet complaint last week that Britain is conspiring with the United States in violating Soviet airspace.

The government note to the Kremlin rejected the Soviet charge and joined with the United States in declaring that the Soviet Union itself had endangered world peace.

Macmillan said the downing of Soviet Union July 1 constituted an "unprovoked attack" of an ex-American RB47 plane by the "tremendously dangerous kind."

## Jap Premier Aligns Firmly With West

By JAMES CARY

TOKYO (AP) — Japan's new premier, Hayato Ikeda, aligned his government firmly with the Western democracies today. He rejected a foreign policy of neutrality and pledged to work for greater prosperity at home.

In his first news conference since succeeding Premier Nobusuke Kishi, Ikeda also:

1. Criticized Kishi's tactics in winning parliamentary ratification of the controversial U. S.-Japanese security treaty.

2. Proposed interparty meetings to improve relations between his own Liberal-Democratic party and the Socialist opposition.

3. Advocated restoration of normal relations with Red China and more cultural and economic exchange with the Red mainland.

"I will not adopt a neutralist policy," he declared. "I will stick to the alliance of the Western free nations."

His criticism of the treaty ratification apparently was aimed at Kishi's summoning of police into Parliament to quell rioting by the Socialists. "The use of violence against violence must be avoided," he said but did not indicate what he would have done.

Ikeda's biggest immediate problem is the labor dispute at the Mike coal mines in southern Kyushu, where rival unions have been involved in frequent bloody clashes. The Sohyo labor federation and the extremist Zengakuren student federation, which played leading roles in barring President Eisenhower from Japan, are seeking to exploit the situation.

Mr. and Mrs. Finis Herring and daughters paid a visit to Mr. and Mrs. Clifton Ellis in Manila, Ark., recently and apparently gave Hempstead melons a real boost. . . a clipping from a Manila newspaper had this to say: "Hope, Ark., We're told, is recognized all over the world for 'mighty fine folks' AND the biggest, the most luscious and the most flavorful watermelons EVER grown anywhere and with that we'll have to agree."

## Inter-American Group to Study U.S.-Cuba Fuss

UNITED NATIONS, N. Y. (AP) — The U. N. Security Council today voted to send the Cuba-United States controversy to the Organization of American States.

The decision was taken after a bitter exchange between the United States and the Soviet Union. Each warned the other not to touch Cuba.

The vote was 9-0 with the Soviet Union and Communist Poland abstaining.

Soviet Delegate Arkady A. Sobolev told the Council the Soviet Union had not threatened the United States with rockets.

U. S. Ambassador Henry Cabot Lodge related: "Neither we nor the Organization of American States are frightened by these threats. All we say is simply this: Don't touch us, don't touch those to whom we are tied. Don't seek to extend Communist imperialism."

UNITED NATIONS, N. Y. (AP) — The U. N. Security Council was expected to give the Organization of American States a clear field today to deal with the bitter dispute between Cuba and the United States.

After a day of debate on Cuban charges of U. S. economic aggression against Prime Minister Castro's regime, the 11-nation council scheduled a morning meeting to hear a blast from Soviet delegate Arkady A. Sobolev and vote on an Argentine-Ecuadorian resolution passing the controversy to the inter-American organization.

Castro in a television appearance in Havana Monday night assailed the move to refer the dispute to the OAS, saying the United States had less influence in the United Nations than in the OAS. But Cuban Foreign Minister Raul Roa, representing the Castro regime in the Security Council debate, privately accepted the resolution.

Because of Ikeda's acceptance, some delegates believed the Soviet Union would either vote for the resolution or abstain on the vote. But in case of a Soviet veto, Argentina and Ecuador were reported to substitute a procedural proposal that would have the same effect but would not be subject to the veto.

The original resolution noted that the Cuban-U. S. dispute is under consideration in the 21-nation OAS and called on the Council: "To adjourn the consideration of this question pending the receipt of a report" from the OAS.

2. To invite the OAS members "to lend their assistance toward the achievement of a peaceful solution."

3. To urge "all other states to refrain from any action which might increase the existing tensions between Cuba and the United States." This was considered the organization's inter-American Peace Committee also has before it a U. S. memorandum accusing Cuba of false propaganda against the United States.

In the debate Monday Roa told the council the United States had falsely accused Cuba of being a Soviet satellite, had declared economic war on the revolutionary regime, and had aroused fears in Cuba that armed aggression would be launched.

U. S. Ambassador Henry Cabot Lodge in reply said the United States "has no aggressive purposes" against Cuba.

## Don't Threaten With Might, Red Envoy Says

UNITED NATIONS, N. Y. (AP) — The Soviet Union today gave the United States a blunt warning: "Don't touch Cuba."

Sobolev also declared in a U. N. Security Council debate that the Soviet Union will defend against U. S. efforts to overthrow the Cuban regime of Fidel Castro by an economic war.

He said the Socialist countries are prepared to give Cuban economic help to make sure the Castro government can withstand any U. S. restrictions.

Sobolev strongly opposed a move to transfer the complaint of the Castro government against the United States to the Organization of American States. He said that organization was completely dominated by the United States and would handle the case as the United States wanted it.

"The United States," he said, "is trying to organize an economic blockade to strangle Cuba and prevent the government from exercising its sovereign rights over its natural resources."

Sobolev attacked U. S. policy generally, but charged specifically that the United States had a long record of interfering in the internal affairs of Latin American countries.

Sobolev spoke as the 11-nation Security Council prepared to vote on an Argentine-Ecuadorian resolution to shift the Cuban-United States controversy to the Organization of American States. Nine members of the council spoke in favor of the resolution Monday.

## Mississippi Governor Leads Bolt

JACKSON, Miss. (AP) — Gov. Ross Barnett has taken the lead in urging a Southern bolt from the Democratic Party.

Barnett said last night, upon returning from the Democratic National Convention, he favored reconvening Mississippi's Democratic Convention to support a third party movement.

The Mississippi governor, who bitterly opposed the Democratic civil rights plank, said the Democratic platform was "so horrible, so repulsive, so odious, and so contrary to our form of government, I don't see how the people of the South can accept it."

Although Barnett indicated he didn't think there was "any chance" Mississippi Democrats will be following the Republican National Convention closely in hopes of finding a platform and candidate they can support.

Mississippi Republican leaders, headed by Wirt Yerger Jr., of Jackson, GOP state chairman, are left for the GOP convention in Chicago, promising to fight for a platform that will set the stage for major republican gains in Mississippi and the South.

Any move for independent electors or a third party would likely "lead their assistance toward the achievement of a peaceful solution."

3. To urge "all other states to refrain from any action which might increase the existing tensions between Cuba and the United States." This was considered the organization's inter-American Peace Committee also has before it a U. S. memorandum accusing Cuba of false propaganda against the United States.

In the debate Monday Roa told the council the United States had falsely accused Cuba of being a Soviet satellite, had declared economic war on the revolutionary regime, and had aroused fears in Cuba that armed aggression would be launched.

The withdrawal of Belgian soldiers from Congo territory was called for in the U. N. resolution providing for military intervention.

# Top Men to Air Attacks About U. S.

By MARVIN L. ARROWSMITH  
NEWPORT, R.I. (AP)—President Eisenhower confers with his advisers today to deal with the Soviet Union's increasingly bitter propaganda attacks on the United States.

The President called to the summer White House for an afternoon meeting a strategy-mapping team headed by Secretary of State Christian A. Herter and Charles E. Bohlen, former ambassador to Moscow and now a State Department specialist on Soviet problems.

Also expected to sit in were Roy D. Kohler, assistant secretary in charge of United Nations matters.

That array of officials, whose top concern at the moment is the Kremlin propaganda offensive, underscores the administration's apparent decision that the time has come to get tough with the Soviet Union, to slam back at anti-American charges.

An Eisenhower spokesman said the conference will deal with:

1. Shaping the U. S. reply before the United Nations Security Council to Soviet charges that the American Air Force is engaged in aggressive activities threatening peace.
2. That accusation is pegged specifically to the July 1 episode of U. S. RB47 plane.

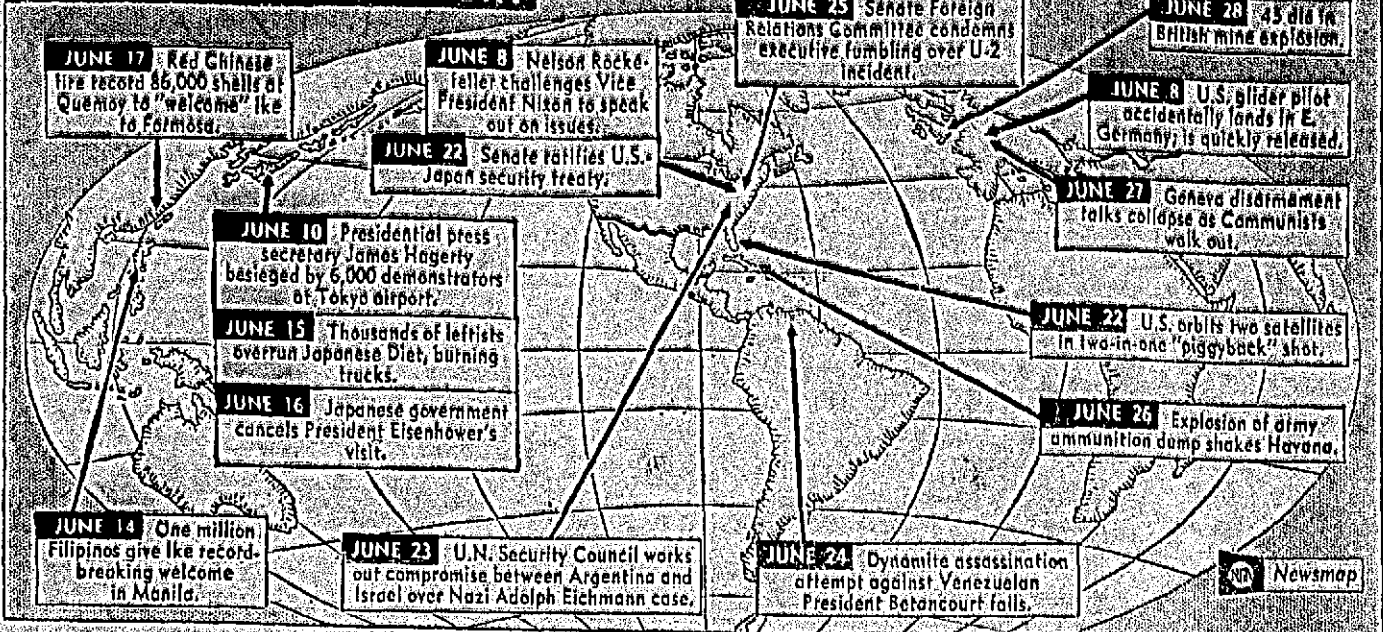

The reconnaissance aircraft was shot down in the Arctic by the Russians, who claim the plane violated Soviet frontiers. Washington denies it, saying the plane was over international waters and not within 30 miles of Soviet waters, territory, or air space.

The U. N. council may start debate on the matter Wednesday. Eisenhower has welcomed the opportunity to focus world attention on what he has termed "the lawless actions and reckless threats of the Soviet government."

The strife in the newly independent Congo. The Soviet Union has accused the United States of trying to undermine Congolese freedom. The White House reply: "How ridiculous can they get?"

The problem of restoring order in the Congo, also being dealt with.

## LAST MONTH - IN HISTORY

by the U. N. Security Council, has been aggravated by a Congolese ultimatum to Belgium to get its troops out of the new country, a former Belgian colony.

If the Belgians don't get out, Congolese officials have warned, Soviet forces will be invited in.

The Cuban problem, also a Security Council issue, The regime of Cuban Prime Minister Fidel Castro has charged the United States with aggressive intent. Eisenhower has stated that the Castro government is deliberately hostile to the United States.

The Soviet Union fits into that picture by virtue of Soviet Premier Nikita Khrushchev's pledge of full support to Castro and a threat to hit this country with Soviet rockets if it dares intervene in Cuba.

### Man Killed in Auto Accident

ENGLAND, Ark. (AP)—Harry R. Breedlove, 43, of Pine Bluff, was injured fatally early today in a wreck on state Highway 80 about a mile north of here.

State Police said Breedlove's automobile apparently went out of control.

The car hit a bridge abutment. Breedlove was taken to a Little Rock hospital where he died several hours later.

## GOPs Get to Problem of Platform

By THE ASSOCIATED PRESS

Republicans swing into their drafting of a 1960 platform today while Democrats shaped strategy for the campaign ahead.

GOP National Chairman Thruston B. Morton set out guidelines for the 109-member Republican Platform Committee gathering in Chicago for its opening session.

Morton called for a pledge to aid in building a better America—but not the "lifelong Garden of Eden" he said the Democrats had promised at their just-concluded Los Angeles convention.

New York's Gov. Nelson A. Rockefeller was on hand to give his views, too. His fellow politicians were eyeing him for more than just what he might say about the platform.

Arriving in Chicago Monday, Rockefeller came out for a civil rights plank he said should go even further than the Democrats' proposal. He favored a ban on racial discrimination in any business operating under federal license and support for sit-in demonstrations against segregation in Southern eating places.

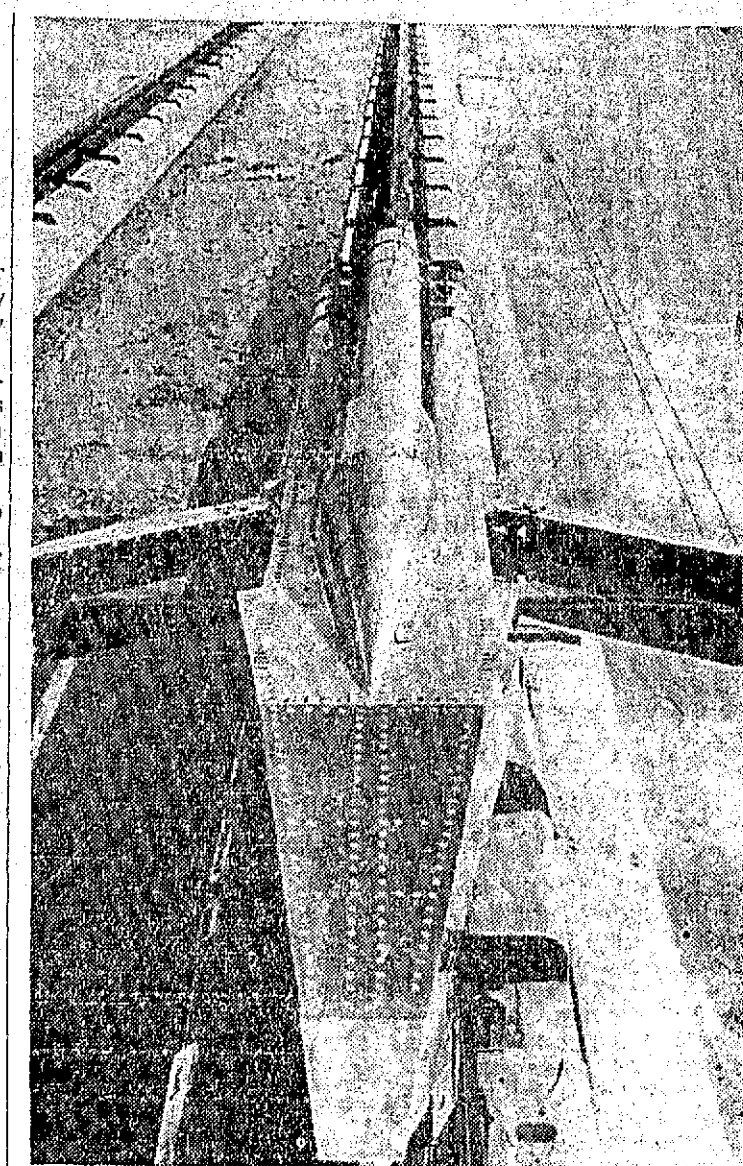

But Rockefeller kept wrapped in mystery his plans for the nominating, which gets under way next week. He gave little encouragement to supporters pushing him as a long-shot contender against Vice President Richard M. Nixon for the party's presidential nomination.

In Hyannis Port, Mass., Democratic presidential nominee John F. Kennedy was reported resting up and quietly moving to smooth over party trouble spots before the campaign gets into swing.

## Castro Hurls Accusations at the U. S.

By ROBERT BERRELLEZ

HAVANA (AP)—Prime Minister Fidel Castro accused the United States today of trying to take its dispute with Cuba out of the U. N. Security Council's hands and put it before the Organization of American States because it can exert more pressure on the "vulnerable" member nations of the inter-American group.

Hoarse and haggard from his recent siege of pneumonia, Castro returned to TV with a wide-ranging three-hour blast in which he called the new U. S. plan of aid for Latin America a "half-billion dollar bribe" designed to "destroy the sympathies of the Latin American people for the Cuban revolution."

Castro also took note of anti-Communist outbursts at Roman Catholic Church services in Havana in the past two days. He accused "privileged counterrevolutionary" elements of trying to convert religious shrines into centers of conspiracy and asserted that part of the Catholic clergy in Cuba is "pro-Franco, and Fascist and reactionary."

The Spanish Embassy had requested a church mass to commemorate Spanish Generalissimo Francisco Franco's role in starting the Spanish Civil War in 1936.

## Carpenter Is Surprise Development

By THE ASSOCIATED PRESS

The final week of the Democratic gubernatorial race opened with a flurry of television speeches and political rally appearances by the five candidates seeking the nomination.

Gov. Orval B. Faubus and two of his four opponents, Joe C. Harbath of Grady and Hal Millsap Jr. of Silsbee Springs, carried their campaigns to television last night while the other two candidates, Alvin C. Bruce of Tarrant and H. B. Williams of Walnut Ridge, spoke at a Pine Bluff rally.

Faubus dwelt mostly on his administration's record on labor and welfare legislation, though he took brief swipes at his opponents.

Millsap sought to link Faubus with a man arrested by the FBI Tuesday in connection with an alleged Little Rock bombing plot. Harbath termed his campaign a

"struggle" and called Faubus a "man who stands for nothing save for re-election." And a Harbath spokesman in Pine Bluff said Faubus is the only Southern governor "who is complying with the Supreme Court's mandate that schools be integrated with all deliberate speed."

Bennett also hit on the integration issue in Pine Bluff. He noted his own role in the Dollarway School integration case there, then said, "Mobs and dynamite and bullets are not the answer to the problem (of desegregation) and they never will be."

Williams defined what he calls "Faubusism" as an "institution of wage and hour measures backed by the state AFL-CIO which will be the most surprising development on the November ballot."

## DOROTHY DIX

Boy Loves Mother But Fears Marriage

Dear Helen Worden Erskine:

We have moved often since my parents divorced 10 years ago. My mother never packs or gets rid of old worthless papers and junk until the night before we move. She will throw away some of it, then stuff the rest in boxes saying, "We'll clear that out when we get to our new apartment." This, we rarely do. We're going to move again, out of the state, 2,500 miles this time. I keep asking Mother when we can clean the storage room.

Mother has only been home three evenings for the last month and a half. Her boy friend never dates ahead but comes by tooting the horn around 10:30 or 11, and out she runs, always putting off today what she could do tomorrow.

When my uncle came last time he found letters of his and others, also bills that hadn't been opened. We realize that Mother has been physically ill, but now she's better, the doctor says.

She makes me sad and angry at the same time. We argue so much I don't know how I can stand it next year in college when I must live at home. After one of our arguments she'll say, "You'd better pack up and go to your father. He's wealthier than I." We live only on my child support. I can't stand it at Father's. There is so much tension. What can I do? —J.V.

Dear J.V.: It is obvious that your mother lacks security and is trying to flee from reality. Try to understand what causes her to cling to the past and refuse to face the future. It may be that she has a great need for sincere love instead of the superficial affection of her horn-tooting boy friend. If you give her understanding, compassion and sincere filial love, you can help her. From your letter, I believe you can.

Dear Helen Worden Erskine: I've been living 10 years with a man I married for spite. I've tried to make him a good wife, even had two wonderful children by him.

Lately I've been seeing the man I hated by marrying my husband. I have loved him 10 years.

Send your problem to Helen Worden Erskine. Be sure to enclose a stamped, self-addressed envelope, and address her in care of this newspaper.

## National Loop Votes in Favor of Expansion

By JOE MOOSHIL

Associated Press Sports Writer

CHICAGO (AP)—The National Loop voted unanimously Monday in favor of expanding to 10 teams and, in effect, told the newly formed Continental League to put up or shut up.

After a long meeting of club owners and general managers, League President Warren Giles said, "If it develops that a new major league is impracticable, the National League has voted unanimously to expand its membership to 10 clubs."

"The standards for a new major league were set forth at Columbus, Ohio, last year and were accepted by the Continental League, which so far has not met them," said Giles.

The National League named a four-man expansion committee, headed by Walter O'Malley of Los Angeles, with orders to go to work immediately.

The committee, which also includes owners Lou Perini of Milwaukee, John Galbreath of Pittsburgh and Bob Carpenter of Philadelphia, sent a telegram to Branch Rickey, president of the Continental League, and to Joe Cronin, president of the American League, asking either or both to meet at their convenience with the committee on the subject of expansion.

Giles, claiming "expansion is inevitable," said his league had discussed two facets of expansion, "expansion by a new league and expansion of the present league."

In New York, Bill Shea, founder of the Continental League, said he was hopeful the National League's action was a good sign. He said Rickey would be glad to meet with the committee "because we want to use every means at our disposal to be taken into organized baseball."

"My main objective from the very beginning has been to get another club for New York," Shea said. "I have been convinced for a long time and still am convinced that the only way to do that is by a third league. Perhaps Mr. Crosley's statement that he planned to remain in Cincinnati had something to do with the National League's action."

Powell Crosley, owner of the Cincinnati club, spiked rumors that he would move his club to New York by stating that the Redlegs would remain in Cincinnati during his lifetime.

Giles said no possible cities were mentioned in the discussion on expansion and no new standards were set for any cities desiring to become members of the National League.

Hank Greenberg, vice president and treasurer of the Chicago White Sox and a member of the American League's Expansion Committee, said he was "delighted" the National League has taken this action, a decision which had to be taken sooner or later.

However, Greenberg expressed doubt that each league could expand to 10 teams in the event the Continental League fails.

## Lopez Collects Dividends From Score Now

By JACK HAND

Associated Press Sports Writer

At Lopez finally has begun to collect dividends for his weeks and months of patience in the Herb Score case.

Score came through with a complete game, his first after 15 straight failures over a two-season span, to pitch Lopez' Chicago White Sox into second place Monday night in the American League race.

"Al understands me," said Score shortly after he was traded to Chicago by Cleveland April 18. "He knows my problem. He's helping me."

Although Lopez understood the left-hander's peculiar problems and stuck with him in the face of criticism, Score was slow to repay him for his faith.

Until Score threw a five-hitter at Boston for a 9-1 victory, he had not gone the route since July 14, 1959.

Score's pitching, backed by a 14-hit attack, boosted the White Sox into second place, only two games behind the New York Yankees, who dumped Cleveland into third place with a 9-2 triumph behind Whitey Ford.

Monday was a night for comebacks. Ned Garver also chose the occasion to record his first victory of the season, pitching Kansas City to a 5-1 decision over Baltimore. The defeat left the fourth-place Orioles four games off the pace. Detroit and Washington were not scheduled.

The entire National League had an open date Monday.

Roy Slocum ran his consecutive game hitting streak to 21, longest in the majors this season, as the Sox won their 17th in their last 25 starts. Boston had taken a seven-game winning streak into the contest. Gene Freese, who hits best against Boston, had three hits, making it 22 in 33 at bats or a .667 average against the Red Sox.

Mickey Mantle's three-run homer was the big blow of a five-run fourth inning for the Yankees in their victory over Dick Sigman.

It was Mantle's 22nd. Roger Maris added No. 20 in the ninth off Barry Latman, while Ford calmly turned back the Indians with eight hits, including John Romano's 10th homer.

Norm Siebern hit his 11th homer with a man on and Andy Carey slammed a two-run double as Kansas City broke a five-game losing streak. Garver scattered seven hits while loser Hal Brown gave up all nine Kansas City hits and runs.

## Hope Fades for Youth

LOS ANGELES (AP) — Hope was dim today for Bruce Kremen, 7, who disappeared six days ago in Los Angeles National Forest, a few miles north of here.

More than 300 searchers have failed to find him. It is believed the boy may have fallen over a cliff in the Buckhorn Flats area.

## Liston Knocks Out Foley, Wants Floyd

By FRANK PITMAN

DENVER, Colo. (AP) — The massive 14-inch fists of Sonny Liston thundered a million today on the door to the heavyweight boxing throne room occupied by Champion Floyd Patterson.

Liston's sledgehammer hands smashed Zora Foley to the canvas twice in the second round and knocked him out in 28 seconds of the third round of their scheduled 12-round bout Monday night in the Denver Coliseum.

"I got him quicker than I expected," the unmarked 215½-pound slugger from Philadelphia said in his dressing room afterward.

Foley, 198½, of Chandler, Ariz., said he had made a mistake in trying to slug it out with Liston.

"I fought the wrong type of fight — I fought his fight," he said.

Liston said he had tagged Foley with a left hook that knocked him for a count of nine early in the second round. That caused Foley "to start respecting my left hook," Liston said. "Then I started taking him the left, and that opened him up for my right hand."

The combinations slammed Foley to the canvas at the end of the second round with the bell

sounding just as the knockdown skill and swift timing hands to count reached nine. Foley seemed to win the first round on the cards, but he was wobbling to all ring officials and the ASB's corner where handlers worked speedily to revive him.

The Arizona moved out for the third round still groggy and became an easy target for the lightning bone-crushing left jabs and right hooks by the Philadelphia hammer blows that knocked Foley again.

Foley tumbled face down onto the canvas for the final count. He never moved until seconds after the knockdown.

Liston, ranked No. 1 challenger to Patterson, now boasts 21 knock-out victories in 31 fights. His meeting with the heavyweight champion, however, will have to take a back seat to the scheduled rematch between Patterson and Ingemar Johansson.

Foley, who entered the fight ranked No. 2 by Ring Magazine and No. 3 by the National Boxing Assn., had won 10 straight fights, three by knockouts, before Monday night's defeat.

The Arizona used his boxing skills to outlast Patterson in the second round. Patterson, who had won 21 fights, had won 10 straight fights, three by knockouts, before Monday night's defeat.

# To The Citizens Of Hempstead County:

I would like to take this opportunity to solicit your vote and support on July 26th since it will be impossible for me to make personal contact with each of you. You realize that this office is a full time job and I am trying to render you the service that you expect from this office; although I wish it were possible to visit each of you.

Now I would like to point out some of the progress that we have made in the last few years for I realize and know that if I had not had the cooperation of you good people that these accomplishments could not have been made.

Because of our cooperation with the State Highway Dept., we have practically all of our State Highways in our County hard-surfaced and with your cooperation we have made it possible to hard-surface approximately 70 miles of County roads, namely: Hope to Spring Hill, Hope to Patmos, Hope to the Rocky Mount Community, Hope-West on Old Highway 67, Saratoga to Beards Lake Road, from Highway 29 to DeAnn, from DeAnn to Burke's Store East, from DeAnn to the Coffee place North, and the Binger road. Now all of these projects have permanent bridges.

We have also assisted the incorporated towns of our County, namely: Patmos, Fulton, Washington, Blevins and Hope in black-topping their streets. Also, with our cooperation with the people of McCaskill, we managed to get the Highway Dept. to blacktop Old Highway 24 from McCaskill to Belton.

Now, in the road program for this year and next, we have what is known as the Marlbrook-DeAnn Road under program and in the Friendship Community approximately three miles; from Highway 67 through the Guernsey Community is in the program, also. We have widened and graveled a number of our County roads.

I have managed to get over \$1½ Million of your Tax Dollars back in our County to carry out this road program and for the public facilities that our people need.

At this time we have a new Health Center for the benefit of our health program under construction which will cost approximately \$70,000.00. In addition to this we have programmed an addition to our new Hospital which will cost approximately \$180,000.00.

It is not my intention to take full credit for these accomplishments. In fact, they would have been impossible without the cooperation of you, the citizens of Hempstead County, and I certainly thank you for your cooperation in the progress which we have made.

I appreciate the confidence you have placed in me and if I am elected your County Judge I will pledge you my full support in continuing the progress that we have made during my administration.

## Rehearsing for Jamboree

WHEN 55,000 BOY SCOUTS AND THEIR LEADERS MEET in Colorado Springs this July for the Fifth National Jamboree, many weeks of training and preparation will be behind them. One of the jobs that requires the most careful advance planning is the food and meal preparation. Over 1,278,000 meals will be consumed in a week's time. And all these meals have to be prepared over charcoal fires. So the menus must be carefully worked out for ease of preparation, good nutritional balance, and variety and popularity of the dishes.

Each patrol of ten will cook its own meals and do the clean-up job afterwards. Paper dishes simplify this operation—nearly nine million will be supplied—and to keep the pots and pans clean and shiny as well as the grills, oval blue soap pads are used. The Boy Scouts take great pride in keeping their cooking units in apple-pie order, whether it's in the training camps before the big event, or at the Jamboree itself, where the same unit is kept together.

The Jamboree is a great demonstration of the patrol method in operation, multiplied many thousands of times. The enjoyment a Scout gets and the values he takes home will come from mutual helpfulness in all phases of camp living.

Will Debate GOP Pick on Television

By G. MILTON KELLY

HYANNIS PORT, Mass. (AP)—Sen. John F. Kennedy, the Democratic presidential nominee, gave the word today he expects to debate the Republican presidential nominee on television.

Pierre Salinger, Kennedy's press secretary, told reporters the major networks are offering free time to the nominees and that Kennedy "presumes there would be joint appearances on television by himself and the Republican nominee."

Salinger said Kennedy will take time out from his vacation Wednesday for a campaign strategy meeting with members of his staff.

Salinger also announced Allen W. Dulles, Central Intelligence Agency Director, will fly to Hyannis Port Saturday to give Kennedy a briefing on the world situation in general and foreign policy matters concerning Latin America and Africa, specifically.

Kennedy Monday accepted President Eisenhower's offer of an opportunity to receive these confidential reports on foreign policy problems.

Salinger said the senator will have no news conference this week but may have one next week.

Kennedy is using the same methodical tactics which won him the nomination in a state-by-state drive to mold hickering Democrats into harmony.

## Kennedy May Start Drive Labor Day

HYANNIS PORT, Mass. (AP)—Sen. John F. Kennedy disclosed today he may begin his presidential campaign at a traditional Labor Day rally in Detroit's Cadillac Square.

Pierre Salinger, the senator's press secretary, told a news conference the AFL-CIO has invited Kennedy to deliver the speech.

## Says Faubus Could Block Stock Deals

LITTLE ROCK (AP)—H. B. Williams said today Gov. Orval Faubus had authority to block fraudulent stock deals even before new laws were enacted.

The candidate for governor made the statement in commenting on a Faubus campaign speech at Benton.

Faubus had said there wasn't enough legislation on the books to regulate sale of securities and stocks in Arkansas before adoption of new legislation in 1959.

"This is so characteristic of Orval Faubus," Williams said in the statement, released by his campaign headquarters. "It was his administration that has always had all the laws any governor would need to license them (stock sellers and insurance companies.) He already had laws permitting him to audit their operations and stop their machinations."

In his speech last night, Faubus noted that his administration had put through a new insurance code and had set up an agency to police the securities field.

Williams called the Benton meeting a "state employees rally."

## Early Trial In Bombings Is Sought

LITTLE ROCK (AP)—A federal official said today he will seek an early trial of three men charged in an alleged bombing attempt at Philander Smith College for Negroes.

U. S. Atty. Osro Cobb said he would ask for the case to be put on the first docket in the October term of federal district court.

The men charged are Emmett E. Miller, 44, and Robert Lloyd Parks, 38, both of West Memphis, and Hugh Lynn Adams, 33, of Bassett. They are accused of violating a provision of the 1960 federal civil rights law by illegally transporting dynamite across a state line for the purpose of damaging school property.

FBI agents seized Miller and Parks near the Negro college here early last Tuesday. A box containing sticks of dynamite was found about the same time.

The explosive did not go off. A federal complaint said dynamite was obtained in Memphis and carried across the Mississippi River to West Memphis.

All three men are free on \$20,000 bonds.

Cobb said there were many angles to the case but facts for trial would be ready for presentation by October.

Conviction could result in a prison sentence of a year and a \$1,000 fine.

## Says Anyone Bid on State Contracts

LITTLE ROCK (AP)—Gov. Orval E. Faubus said today that anyone can bid on state surplus commodity hauling contracts.

He dismissed Joe C. Hardin's call for a probe into the increased cost of hauling with "If that's all they can come up with, I think I will just let them alone on it."

Over the weekend, Hardin accused the administration of mis-handling distribution of surplus commodities. He said per mile cost of trucking commodities to distribution points about the state increased from 24.75 cents per mile in 1957-58 to 43.5 cents per mile in 1958-59.

Hardin said McCaBee Trucking Service, of Huntsville, Faubus' hometown, was the sole bidder on the hauling contract for the past two years. He also said McCaBee was incorporated on the same day it obtained the contract.

Faubus was preparing today for a 15-day speaking tour which will wind up his fourth term campaign. The tour begins tonight in Benton at an outdoor rally.

## New Phone System for Fordyce

FORDYCE, Ark. (AP)—Ground was broken Saturday for a new Allied telephone Co. system here which will provide person-to-person long-distance dialing system.

Public Service Commissioner John R. Thompson said it will be the only "independent" telephone company in the nation with such a feature.

The service will also have direct distant dialing on a station-to-station basis, which a number of other cities now have.

Under the person-to-person dialing system, the caller dials a code number for the person he is calling. When the other telephone is answered the Fordyce operator breaks in with "Did you reach your party?"

If the caller says no, the connection is broken and there is no charge. If the call was completed, the caller is charged automatically under person-to-person rates.

The new system is to go into effect Jan. 1, Thompson said. The Fordyce building and equipment will cost \$335,000, but the area system, which includes Thornton, Bearden, Sparkman and New Edinburg, will cost one million dollars.

Thompson told the crowd at the dedication ceremonies that Fordyce will have the most modern telephone service in the nation.

## Baptist Official Against Kennedy

LITTLE ROCK (AP)—Nomination of Sen. John F. Kennedy, a Catholic, for president has drawn the fire of the Rev. W.O. Vaughn, first vice president of the Southern Baptist Convention.

Vaughn told his Immanuel Baptist Church congregation last night that Catholicism and Communism are the two most "deadly threats" to freedom.

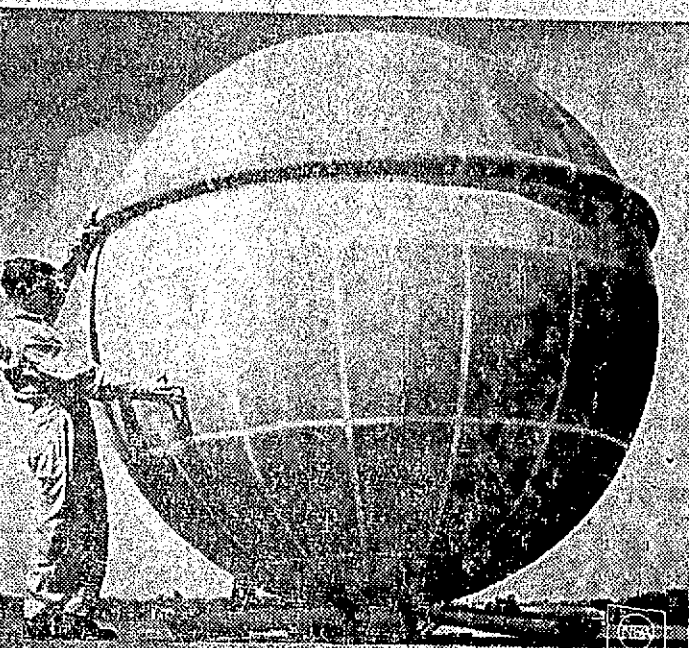

"If John Kennedy sits in the White House," Vaughn said, he'll sit there over my protest."

Kennedy, of Massachusetts, was nominated last week by the Democratic National Convention, the first Catholic to be selected since Alfred E. Smith of New York in 1928. Smith was defeated by Herbert Hoover.

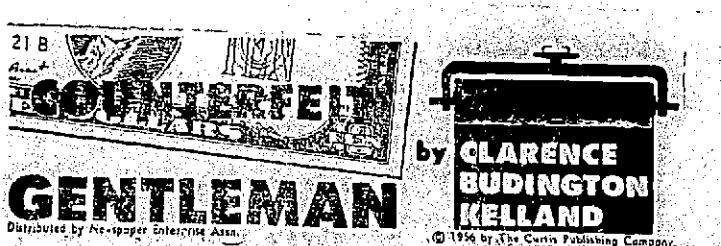

Vaughn charged that Kennedy has proven allegiance to the Pope, but he did not say how. Kennedy has said his religion will not influence his political decisions. Vaughn charged that Catholics

"Disappointing to these gum shoes," Artemus said. "They had me elected. Four hours ago I was 10 miles from here eating dinner. Also three hours ago. Also two hours ago."

"Without verifying with Mr. Roche?" Artemus asked. The detective hesitated.

"Costs nothing to telephone," said the other detective.

"Play it wise, gentlemen," Artemus suggested. He gave the Roche's number. Late as it was, there was an almost immediate answer.

"Very practical."

"Need a mouthpiece?" "You volunteering?"

Artemus snickered.

## A REPORT TO THE PEOPLE OF Hempstead County

### To My Fellow Citizens...

You and I are personally interested in the amount of taxes which we pay, and it is natural and right that we should be concerned with what is done with the money. Most of our taxes goes to the Federal Government, and some is kept for the operation of your local county and municipal governments, and for your schools. Less than one-third of the taxes which you and I pay actually goes into the State Treasury. Special taxes, like that on gasoline and auto license fees, make up forty per cent of the state revenues, and these monies are earmarked for use on the highways and the like. The so-called "general revenues"—principally from sales and income taxes—go for the support of your schools, colleges, welfare assistance, hospitals and health, and other public services.

It has been my policy, since I became your Governor, to see that more and more of your state tax dollar is spent for direct benefits to the people who pay the taxes. Your people have been the beneficiary of many public services, since I went into office, and I would like to pick out just a few of these and compare the amounts which were being spent in your county when I took office and what is being spent now—during the most recent fiscal year of 1959-60. You will observe that, for just the few services listed below, there has been an annual increase to your county of over \$268,695.08—or 31.22 per cent more now (in 1959-60) than when I first took office (1954-55).
